***Allowable Subject Matter***

Claims 1-65 are allowed.

The following is an examiner's statement of reasons for allowance:

**As per claims 1-65:** the claims are directed to estimating a location of a transmitter or receiver. The prior art of record does not teach or fairly suggest transmitting, at least one identifier signal via two different channels/directions which are received by a receiver configured to make an estimation of spatial signature of the two different channels based on which the position/location of the transmitter or the receiver is defined, as recited in claims 1, 31 and 60-65, and further argued by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
